

GASSCOM (Industry Association)

The Ghana Association of Software and IT Services Companies (GASSCOM) is a vibrant industry association. It is Ghana's premier trade association for the ITES-BPO industry and software services industry. GASSCOM is registered as a non-profit company limited by guarantee under company's code of the Republic of Ghana.

GASSCOM facilitates BPO/ITES businesses and trade in software development. It is also a strong advocate in soliciting government and other public sector support and encourages the advancement of the industry as a key and strategic sector for the growth of the Ghanaian economy in the next millennium

MISSION

To propel Ghana's economy into the 21st century by delivering on the promise of making Ghana the services hub and gateway to Africa.

VISION

To act as a catalyst for the growth of IT-enabled and BPO industry in Ghana, by playing a key advocacy role in influencing government to prepare the enabling environment through appropriate legislation that will foster the growth of the outsourcing industry.

GOALS

To facilitation of strong bonds and trade between outsourcing companies in Ghana and develop strong association with global outsourcing trade groups, and collaborate with investment partners to promote the industry

GASSCOM

(Industry Association)
